RE: Wattenberg Disposal, LLC  
Suckla Farms Injection Well #1 – 2017 3<sup>rd</sup> Quarterly Report

Dear Mr. Breffle;

Due to remediation work and hydraulic fracturing of offset wells in area, the Suckla Farms Injection Well #1 located in the SWNW Section 10, T1N, R67W, in Weld County, Colorado, was shut-in and unable to operate during the quarterly injection reporting period of July 1, 2017 through September 30, 2017.

As a result of the shut-in status of the injection well, waste fluid analyses and injection well monitoring reports could not be completed. Required quarterly reports under Permit Number CO10938-02115 will be submitted once the injection well resumes operation.

If you have any questions or need additional information, please do not hesitate contacting me at 303-825-4822 or slaramesa@kpk.com

Sincerely,

Susana Lara-Mesa  
VP of Engineering
